

Biomimicry for faculty Workshop

The Biomimicry Center, in partnership with Biomimicry 3.8 is offering a workshop for ASU faculty from all disciplines.

Over the course of two content & experience-rich days, we will introduce participants to biomimicry with the express intention of encouraging the incorporation of biomimicry into course content and research initiatives. Participants will immerse themselves into the tools of biomimicry: Biomimicry Thinking and Life's Principles, both by practicing applying the tools as well as engaging in specific learning activities that can be adapted to their own classrooms at both the undergraduate and graduate levels. Participating in one of our biomimicry workshops is a prerequisite for applying to our \$10K+ faculty research seed grant program. These seed grants are partially funded by Fulton Schools of Engineering. Our seed grant deadline this year will be October 1st, 2020.

Dates

Saturday, September 19th: 9:00am to 8:00pm

Sunday, September 20th: 8:00am to 5:00pm (dinner optional)

Location

The Biomimicry Center
850 S Forest Mall Room 126
Tempe, AZ 85281

Sign Up

Please email Mary Kivioja at mkivioja@asu.edu with questions. Click here to register. The Biomimicry Center will cover costs for all participants. Workshop space limited, sign up early.
